PROHIBITED REGRET

The note of Dr Pizarro, Minister of Worship, to the Archbishop of B. Aires, and which we give at foot, may be accepted as a reminder of how short a time has elapsed since the nation was on the point of foundering in a political commotion. Things, and men with them, have changed so thoroughly since the unhappy events of June 1880, that anything tending to revive a recollection of them creates an unpleasant impression on the great majority of the public, and it is both unwise and unpatriotic of any person or political party to do anything calculated to bring the past into unnecessary notice. Reverence for their dead is a touching characteristic of the Argentine people, and one which merits the highest respect; but it forfeits much of the latter when allied unnecessarily with politics, and thus imperilling the public peace.

The funeral service which the unsuccessful party at the last Presidential election had prepared for to-morrow could, manifestly, have been arranged and held in a private way without the National authorities being forced to take any notice of it; but the wording of the invitation, to which such profuse publicity was given, challenged the very issue it has brought about and the severe rebuke embodied in the Minister of Worship's note to the head of the Argentine Church.

Every allowance must be made for the feelings of the surviving relatives of those who, misled by political dreamers, fell in a cause which they believed to be right; but we are much mistaken if the sorrowing wives, mothers and children of the fallen have any desire whatever that their sacred grief and prayers for the loved ones lost should be made to serve a fallen political party.

The incident is a painful one, and is best forgotten as soon as possible. Public sighing 'for the touch of a vanished hand and the sound of a voice that is still' is useless, and the prayer of the widow and the orphan will reach the throne above as swiftly—aye more so—from their humble homes as from niched Cathedral aisles. Let us not forget the dead, while deeming it an equally sacred duty to the country to forget the deplorable errors that killed them.

Department of Justice, Worship and Public Instruction, June 17th 1881.

To His Grace the Archbishop.

The President of the Republic having learned that certain Committees, representing a political party, have invited the citizens, in the columns of some of the city papers, to attend a funeral service, in the Cathedral, on the 20th inst, for those who fell in the last rebellion against the authorities and laws of the Nation, defending, as they declare, public liberty, has resolved to prohibit all manifestations of this kind which, ignoring the National authorities, revive the passions of the last revolt, and, under the pretext of a religious ceremony, tend to disturb public order and tranquillity.

The mission of Religion to nations is one of peace and good will, to mitigate the horrors of civil strife and heal the wounds it inflicts, not to irritate and inflame them. It prescribes respect for law and lawful authority, and does not sanctify with its rites offences against either.

Piety and patriotism can solicit pardon and oblivion through religious ceremonies, but not seek, through them, to exalt and consecrate the memory of such offences. Days of eternal mourning for the Republic are those which commemorate its fratricidal wars.

The President of the Republic, who has firmly resolved to maintain the public peace and to obliterate, if possible, even the remembrance of those civil commotions, therefore, prohibits an act which, under the cloak of a religious ceremony, is in reality an insult to the Government of the Nation and the laws, and hopes that your Grace, animated by similar feelings, will not allow the solemnity of religion to be thus abused.

I salute your Grace most respectfully and pray God to guard you.

M. D. Pizarro.

In Congress, Dr. Pellegrini moved that the Senate viewed with regret the action of the Government in the matter. Dr. Pellegrini made a most vigorous and eloquent speech. It was referred to Committee, and after a short debate was negatived by 13 against 5.

We hear that the Archbishop consulted with the Nuncio, and advised the Government that he could not close the doors of the Cathedral against those who wished to enter and pray, and thus this rather unpleasant and regretable matter has ended.

LIMAY AND NEUQUEN

We extract the following most interesting description, of the Limay and Neuquen, published by the *Libertad* on Friday evening; the correspondent is a countryman, Mr E. O'Connor, and we congratulate him on his interesting account of this territory:—

"I pen these lines from the spot where the Limay and Neuquen meet and rush headlong into the Rio Negro; the currents of both streams are distinctly visible in the Rio Negro bed, until the latter bends, when the waters of both affluents confound in each other. The Limay at present is not navigable, owing to the many rapids, which diagonally intercept the passage of the boats; the waters of the Limay are blue and limpid, clearly showing that the source of same springs from distant lakes; you can see every pebble in the Limay's bed. The Neuquen, on the contrary, about from 30 to 50 yards wide, bears troubled and muddy waters; like those of the majestic Plata full of fishes.

I may safely state that the Rio Negro is not navigable during the months of February, March, April and May; in June the waters begin to rise with the abundant rains in the Cordilleras. Its banks are lovely, whilst the valley, with the flowing stream, the green fields and the adjoining hills offer a beautiful panorama.

It would be useless to fatigue you with the monotonous account of a daily journey from Carmen de Patagones to this point. We spent the time in discussing our explorations in general, and we arrived at the conclusion, which may fairly startle you, that Villarino's so-called 'Salto de Mosquitos' does not exist. Naturally this assertion has given rise to the most exciting debates.

The other day I ascended the Roca range of hills and from a height of 500 feet I admired the lovely landscape before me. I may as well inform you now of the legitimate pride I entertain that after Villarino, my vessel has been the first to trouble the waters of the confluence of the Limay and Neuquen. Far greater shall my satisfaction be when with the glorious Argentine flag at the mast I will plough the mysterious waters of the Nahuel Huapi lake.

Just as I finish this note an officer has arrived and informs me that General Villegas has arrived at last after many tedious journeys at the Nahuel Huapi with all his divisions. Shayhueque has escaped with his Indians; meantime Yuacaye has presented himself to the troops; this Indian chief is well-known for the continual protection he has extended to all Christians who have crossed Patagonia. The army has seized a great number of horses and cattle.

This is all I can write you for the present.

Eduardo O'Connor

ROSARIO.

(*From our own Correspondent.*)

June 17th.

Your Correspondent from Valparaiso's relation of the passage across the Andes, by the Uspallata road, is rather startling, and is apt to discourage travellers who might be thinking of taking that route to Chile. I suppose the writer is a tourist for the first time, and is predisposed to 'ahogarse en poca agua,' In a long ride, that occupies some days, through a region where there is not even a hut to shelter one, or a tree to roost in, the inevitable conclusion is that one has to sleep on the ground; and I have always found Mother Earth a comfortable mattress when one has a sufficiency of blankets, which, of course, any experienced man would never be without. I crossed over the same route some years ago without experiencing any of the dangers or inconveniences mentioned by your correspondent. I had to break the ice on the beautiful lake on the Chilian side to have a wash, but that was fun, as were the jolly dinners we used to have on camping at night. Of course, it was the only regular meal one could have in the day, because the provisions are packed on the mules. But a knowing traveller will always have his 'alforjas' filled in the morning

Can be used with COLD WATER. Sole Agents MOORE & TUDOR. Maypu 95 and 127. Beware of imitations and falsification

with captain's biscuits, Bass's ale and Parry and Co.'s corned beef. The man who wants anything more till dinner time must, indeed, be a Sybarite. As for climbing up and descending the 'Cumbre' on 'all fours,' the writer must have meant the mules; if it were he himself that performed the feat, why, I can only say, the lightened mule must have had a jolly laugh in her sleeve. The fact is, the road over the Andes presents no dangers whatever, except in stormy, winter weather, at which times no travellers go over them. The zigzag roads over the steepest heights are traversed by the mules with the greatest ease. On descending the rider, if he chooses, can get off and walk down quite comfortably on his two legs. Many years ago the 'Laderas' *looked* perilous, but they are greatly improved now, and in order to dangle one's legs over a precipice one has to get off his mule to do it, if the spirit moves him in that direction.

I see that the Western Railway Extension Bill has passed Congress. This is the most important circumstance in the annals of that great provincial company. For a long time the 'pro hombres' of Buenos Aires, determined to compete with the Central Argentine for the trade of the Interior, thought of no other way than that of extending their railway to Villa Mercedes, the present terminus of the Andine line. In fact, one of the clauses in Mr. Clark's contract was an obligation to construct this line, with a national guarantee of 7 per cent. Suddenly the Directors of the Western, finding that their line had perceptibly approached Rosario, and that an outside bidder was making efforts to get the concession, came into the field themselves and determined to connect Buenos Aires with the Interior by means of the Central Argentine. Of course the works will be carried on at once, for the Western can get all the money necessary without difficulty. It is a subject of speculation as to where the new line will tap the Central, whether it will be in Rosario, Carcarañá or Canada de Gomez.

It is rather curious that this Extension of the Western to tap the Central Argentine should coincide in tone with the mooting of the great Chaco enterprize, that is, the starting a railway from Carcarañá or Cañada Gomez, stations of the Central, to run through a part of the Chaco to Santiago. This project, if carried out, would undoubtedly play into the hands of the Western Railway; and it is not impossible that the directors of that line had their eye on the projected Chaco and Santiago line when they determined on their Extension. When this railway, which will be the great Eastern of the Republic, in contradiction to the Little Eastern in Entre Rios, shall be finished, B. Aires will be in direct railway communication with the three grand regions of the Republic—the sugar and mineral region of the North-West, the wine and fruit of the West, and the inexhaustible agricultural domains of the Grand Chaco, or the great North East region. Buenos Aires, within fifty years, will be as large as Rio Janeyro, Santiago de Chile and Lima rolled into one. Happy the English capitalists who invest their gold in this country!

Fifty years ago the province of Santa Fe had about fifteen thousand inhabitants. Rosario existed in the form of a cluster of estancia houses. In the capital there was one Judge of 1st Instance for civil and criminal jurisdiction all over the province, one Defender of Minors and the Poor for the whole province, and one Justice of the Peace for the Department of Rosario. The salary of the first was twenty-five dollars a month, that of the last was eight dollars and a-half! It is true that living was cheap—a cow could be bought for a dollar and a quarter, and a basket of a hundred eggs for two reals. There was really very little progress for twenty years, or until the fall of Rosas. Buenos Aires, as a province, was little better than Santa Fe in those days. If, then, within thirty years, the change has been so wonderful, what may we not expect in the first quarter of the twentieth century? First came David Bruce's line to Rosario, represented then by one little boat, but afterwards and up to the present by splendid steamers. Mr. Bruce was the first to connect Buenos Aires with the Interior by steam, and may be said to have built up the traffic between the two ports.

Then came the first timid attempt at Railways, and a few miles of the Western were constructed, and ten years later the Central Argentine, then the Great Southern, the Extensions of the Central, the lines in Entre Rios, and two thousand miles of projected lines, the river studded with steamers and sailing craft, and nearly a dozen ocean steamer lines that connect us with Europe. I say nothing about the stream of immigration and our hundred millions of sheep. Well, when we think that all this is the result of the progress of thirty years, it strikes me with such wondermenf that I have to lay down the pen.

CORDOBA.

(*From our own Correspondent*)

Cordoba is to be woken up and civilized by a tramway—so said the *Standard* a week or so ago. But dear *Standard* the good people of Cordoba have ridden in tram-cars for years now: tram lines run through their streets in almost as great a profusion of bewilderment as in Buenos Ayres; the tramway horn wakes them up in the morning, and sounds their lullaby for them if they go to bed tolerably early. We Cordobeses are not nearly so behind-hand a people as tradition would make us out to be. We have just shown it, to the sorrow of our good Bishop Esquiu, who wishes to have his own way with the theological chairs of our famous University. The Electoral College appointed professors not at all to his liking; finding his protest in vain, he has gone to Buenos Ayres, but there, according to report, he has found no better, and rumour adds that he will never come back to us. We Cordobeses are learning to think for ourselves, which is a sign that we are imbued with the true spirit of this nineteenth century. We have now something fresh to think of; these railways which were going to do so much for us are, we find, carrying the stream of trade and population right away past us. Our brethren in Tucuman and Santiago are planting sugar cane, and going in for all sorts of new industries, and we are not to be their market any longer. They supply us with oranges, and send us some few 'ponchos' and 'gergones' to sell for them, but Rosario is their seaport, and the iron road is going to unite them with Salta and Jujuy, later on with Bolivia also. Our cattlefarms at Fraile Muerto and Rio Cuarto are filling up, but what is that to us of the capital? San Nicolas buys their 'novillos' from them, and Rosario supplies them with all they need; we who are in the centre of this progress are likely tobe left high and dry, unless we do something to shift for ourselves. And what can we do? Our stony sierras and arid plains do not suit the estanciero; our winters are too cold for the growth of sugar cane, and our grapes, though very good to eat, give little promise of good wine. What can we do? We have arms and hands in abundance, labor is cheap; among the poorer classes living is very easy.

In our glorious climate almost anything not requiring a tropical sun will grow, if it have only water, and that we have in plenty only not in the place where we want it. Our sierras form a never failing trap for the clouds which pass over us, but our rivers and streams carry all this watery wealth away from us; our plains lie arid and moistureless, and crops have failed so often that our farmers care little to run the risk again, save on a very small scale. Our labourers live on 'sandias' and pumpkins, and do not thrive on that diet. Cannot some one cut acequias for us across these arid plains, and turn them into verdant tracts of meadow land for us, then might we fatten beeves, and grow rich, as do our brethren of San Luis and Mendoza. Will Government pause in the midst of their gigantic schemes of railways that are to be, and help us to make use of what already is, or must we dam our streams and cut our acequias for ourselves? Well we are waking up, and learning to think, perhaps we may learn to work out our own thoughts for ourselves, 'mañana.'

Mighty proud are you people of Buenos Ayres of your adoption of the latest of late inventions—the telephone. We have had a telephone in use for the last two years, on the Tucuman Railway, and think nothing of it, And now you are writing nonsense about the Comet, 'Petty's Comet!' 'Faye's Comet!' who else's Comet would you like to call it? We are on the lookout from our observatory, and by and by we will tell you all about it. We have been sorely troubled of late by cloudy nights, and our astronomers are fretting and fuming at the interruption: but we estimate that it will r ach its perihelion about Sunday next; then we will be able to calculate its orbit with certainty and will impart our knowledge to the world.

We did hope to have had our city lighted with the electric light last year, but we were getting too far in advance of the age, and it wasn't to be done; but it will be done, and in no city could it be done to more advantage than in Cordoba, where gas light is not to be thought of, and we feel that our dim oil lamps are not in accordance with that stage of advancement at which we have already arrived.

EDITOR'S TABLE.

The remains of the late Mr Gregorio B. Gesino were interred on Friday in the Recoleta Cemetery. The deceased gentleman was one of the best known produce buyers in the South market, and the large concourse of his confreres and other friends who assembled to pay his remains the last tribute showed the high esteem in which he was so justly held by all who knew him.

The fashionable German world will be at the grand concert to be given to-morrow night at the Coliseum by the German Beneficent Society. Several distinguished amateurs have volunteered for the occasion, amongst them Mrs Krutisch, the queen of all our lady amateur singers. The programme is most varied and attractive, and it may safely be predicted that there won't be standing room in the old Coliseum to-morrow night.

The National Government prohibited yesterday the intended funeral serviee to-morrow for those who fell fighting against the National troops last year. Public opinion approves of this step, as there was evidently as much politics as religion in the intended ceremony.

We had several visits yesterday from engineering and shipping friends to see the engraving of the De Bay propeller. To a man they approve of it.

We hold a letter for Mrs. Rose Hannah.

The fun is beginning again in Montevideo. The commanders of regiments want to force the Minister of Government to resign, and Col. Santos is hourly expected from the camp, to make a decided push for the Dictatorship. When Colonel Latorre arrives and puts his powerful shoulder to the wheel, Santos must look out not to get under it, as there will be a rare game of push then.

The 'relojero' who has the Cabildo clock in han s announces that today, at meredian noon, he will set the clock true to the 1000th part of a demi second, so those who want to set their watches are requested to assemble in Calle Victoria at the hour named. What security will the clockmaker give that the old clock will keep the correct time for even half an hour? Its recent performances have not been encouraging.

The night editor of a Nova Scotia journal wrote the following headline to one of his cable dispatches—'The British Lion Shaking his Mane.' He was unable to eat his breakfast next morning when he found the printer's version of the matter staring him in the face thus:—"The British Lion Skating in Maine."

Esmeralda Cervantes, the great Spanish harpist, will take her benefit on Wednesday evening next at the Coliseum. We understand that the programme will be something very nice and very new.

The *Ferro-carril*, the most newsy paper in Montevideo, says it has lost 2000 subscribers during the recent rumpus down there. Our unfortunate colleague attributes this crushing loss to its having yielded to the temptation of meddling with politics in its too eloquent leaders, and has now resolved to forswear such perilous sack, live cleanly, and stick to news, and nothing but news, for the future. We should like to hear how many subscribers our colleague has left, writing off the 2000 dead heads. We have never before heard of such frightful slaughter in a subscription list. 2000! The stoutest editorial heart might well quail before such a loss as this.

The *Libertad* says that in the Budget to go before Congress it is proposed to put a Customs duty on live stock. Here's a go, just at the moment when the whole country is going into stock raising.

Monsieur Moet, the great champagne manufacturer, is dead. Worth £1,200,000.

After a checkered life of seventy-three years, a life that began in brilliancy to end in desuetude and neglect, the *London Examiner* has just printed its last number.

Opera-goers were rather disappointed last night when, on reaching the theatre, they found they were to hear Robert le Diable again, instead of Lucretia Borgia.

The report circulated as to Patti coming out here is not altogether devoid of foundation. There is a party here from Europe who is making enquiries as to whether her price can be got, etc. etc.

Thirty-two kilometers of the telegraph line between Bahia Blanca and Patagones are completed, and the engineers expect to lay five miles a day for the future, as the worst part of the road is passed.

The Crystal Palace Theatre is going ahead apace, and we suggest to the Municipality that, before it is too late, they should interfere, and have the staircases, doors, &c., all properly constructed on the most modern principles used against fire; otherwise the building will be run up in the slap-dash style common in this city, and, should a fire occur, half fashionable Buenos Aires may be roasted alive some night. Now is the time for Municipal action in the matter.

The half-yearly meeting of the Horticultural Society will take place to-morrow evening at 8 o'clock, at 101 Reconquista, to elect new Committee, receive report, &c.

A shocking accident occurred to a coachman yesterday in Calle Reconquista; his horses ran away and he was pitched from his box on the crown of his head. He was carried into Mr Seedorff's 'botica,' where the proprietor and Dr Hiron did all they could for him; nevertheless he lay insensible for an hour, when he recovered his senses and was then sent to his home in a coach.

An American contemporary having threatened to make some folks see themselves by holding up a glass to their faces, these folks retorted by guessing that he 'has held up too many glasses to his own face.'

The latest railway extension on the tapis is that of the Campana line to Zarate. As the distance is barely a couple of leagues, we suppose there will be no great difficulty in the matter.

The high prices at the Colon Theatre are unlikely to be any lower next year, as Mr Ferrari has already secured the Opera House for 1882.

The Quartette Society will play at their next Concert (on the 28th) Braham's famous sestette, never yet played in this city. This will be a prime treat for those who can appreciate classical music.

The *Independiente* of Rosario gives some interesting figures respecting the trade of that port last year. The total value was $f. 23,545,651 of which $f. 9,982,213 of imports, and $f. 11,356,498 for exports. In 1873 there was an excess of imports of $f.5,771,728, whereas last year there was an excess of exports of $f.1,374 267. Old Rosario is keeping abreast of the improved times.

A Lacrosse tram-car had an awfully narrow escape some evenings since when crossing Calle Parque. An up train on the Western Railway came on as the car was crossing; it went so near that the passengers were terribly frightened. The train was going, as usual, quite too fast. It will be a relief when the terminus is removed to Plaza Once.

In Rio they are going telephone mad also. The fashionable instrument there is the Ader, which is said to have some advantages over all the other systems.

VALUE OF PAPER-MONEY.

Until the evening of 22nd June the rate will be—

26⅝40 cents Prov. Bank m/c. 1$ gold.

EMILIO CIVIT.

ON 'CHANGE.

June 18th 1881.

Patacons	26.40
Cedulas A	98⅝
National Bank Shares	98
Bonos Prov.	1½ prem.

There was another break in the gold market to-day, and for the first time in the history of its fall many outsiders at last confessed that the pataeon seems marked for 25. Dr Rocha, Governor of Buenos Aires, and Minister Uriburu, have come to the rescue of the Provincial Bank, by going with the current and adopting every possible measure to resume specie payment. Those intimate with the Governor are of opinion that such is the power and position of the bank, when rightly directed, that within a month from the passage of the consolidation law, the patacon will be 25, and it really looks very like it, as exchange is rising, the news from Europe about produce excellent, and the specie requirements of the market most trifling. The feeling at the ring was evidently in tone with that of the Provincial Government House, and prices gave way with a species of shock, tumbling 25 cents cash; 238,500 pats were sold cash, prices opening at 26.65, and dropping all day until the bell rang out. For the end of June 998,000 sold, opening at 26.50, and dropping to 26.35, and closing at 26.45. For the end of July 421,000, opening at 26.25, selling down to 26.10, and closing at 26.20; sales for Oct., Nov. and Dec. at 26. Total sales today 1,949,500, about one million nine hundred thousand pats more than the market requires.

Cedulas look improving and rule firm for end of month at 99, many buyers.

Nat. Bank shares dull, everyone into gold, and people forget the stock, only 400 shares sold at same price, 98 end month, 99 July.

Bonos Provinciales a shade firmer after yesterday's shake, a few sold at 101 and 101½. It seems that Minister Uriburu will take up all this stock and pay it off at par.

This being Saturday, the vencimientos in gold were heavy enough, amounting to 473000 pats. The payments for produce were not to say heavy, and although, we publish a letter at foot, contradicting the business done yesterday morning at the plazas, we repeat our statement since we derived our information from the manager of one of the largest German wool exporting houses in this market. The news from Europe about wools continues favorable, and further telegrams with enlarged limits were received to-day. It is probable that next week a good deal of the deposit wool will move off, since even wool men begin to see that if they hold back much longer, they may be selling their wool when the patacon is 25 m/c.

Gowland's sugar auction was a splendid success, perhaps one of the most important sales of the season, over 200 bidders present, all wholesale almaceneros, the sugar sold for 64, 63, 62, and 61. In fact, it is only Gowland who could obtain such prices.

Discount brokers report money so easy that all stocks must advance; Government bills very hard to get, and yesterday a large sum offered the Nat. Minister of Hacienda at 6½ and declined, people who hold Nat. Government bills complain that the Minister will not renew them.

The Prov. Bank discounted yesterday 4½ millions, and the Nat. Bank also discounted freely. We hear of a 'retro venta' business for 500,000 m/c for 6 months, at 10 per cent on good city property.

The Mathey steamer Savoie sailed to-day, taking full cargo and heavy mails.

Another sale of Italian Bank shares reported, 16 shares at 19 gold prem.

Cattle brokers report hacienda vacuna very freely offered at 270, but price cannot be maintained, and difficult to get buyers at anything over 240 m/c. To-day there was a meeting of estancieros at Quesada and Bulrich's, we have not heard the object, but suppose something to do with the new trade of cattle coming over from Colonia to Barracas.

The Government has got most satisfactory news from Patagones about the new telegraph line going up; the posts are now going up just in front of San Blas

Gold at after hours ruled without much change, and strange to say the price cash rules at 26.40, whilst for the end of the month it held at 26,45; at 4 o'clock, however, sellers were offering for the end of the month freely, and the rate for that date closed at 26.40.

In National Bonds two sales this afternoon:
4,000 at 99 with coupon
3,300 at 99 ditto

Captain Ferguson, commander of Herschell, was warmly welcomed on 'Change by his numerous friends; it is some time now since the Commodore of the Parana has been in the Plate. How much the Rosario trade has grown since he began it might serve for a useful study to those who wonder at gold going so fast to par.

Telegrams were received to-day from Mr Nash in Liverpool announcing the shipment of the magnificent sire horse Phœnix to Mr Kemmis. It is not to be wondered at that Mr Kemmis holds the front rank with his horses when he goes to such great expense to always secure the best.

The Dalton left Rio on 15th and will be here on Monday.

The Strabo, new steamer, is due here on the 23rd inst with Liverpool dates 26th May.

The Plata arrived at Rosario yesterday and will leave on Tuesday; she takes in cargo at San Nicolas and San Pedro.

Several sales of gold from house to house for the end of the year at 26, are reported. We know of one transaction at that rate for 100,000 pats; rather a good sale.

Gas shares, 20 sold at afterhours at 1900 m/c; buyers offering for more but holders ask 2000 m/c.

Cedulas and Bank Shares showed no alteration at afterhours.

The Argentine Consul in Trieste, Baron Morpurgo, spent 35,000 florins for the daughters of soldiers on occasion of marriage of Crown Prince of Austria with the Princess Stephanie of Belgium; the right man in right place.

Johnsen Gaibisco & Co have charteret the German brig Kronprinz von Preussen to load salted hides in Uruguay to Channel f.o. at 32s 6d in full.

At 4 o'clock all the Bolsa tables were crowded, and much business seemed to be going on. There was also a brisk movement at all the banks; now that the weather has cleared up, and the news from Europe about wool is better, it is thought bales will come forward more freely; several sailing vessels were taken up to-day, we believe chiefly for Havre.

The Nat. Government has approved of the new plan and buoys for the port of Patagones.

The Savoie took 80 passengers and 500 tons cargo.

Benjamin Sastre sold to-day a site in Plaza Lorea, 7 x 18.53 varas, for $90,000; also another 15.53 x 18.53, for 185,000 m/c. Buyers Lavarello and Gutierrez.

Messrs V. Casares & Sons have removed the factory for the manufacture of their brand of Sheep Wash, 'Fluido Creoseto,' to more extensive premises in the Plaza 11 de Setiembre. This is another instance of successful home industry against foreign competition.

The Dutch brigantine Stella Maris came alongside the Catalinas Mole to-day with a cargo of gin for Messrs Peters Hermanos.

When the *Nacional* came on the Bolsa this afternoon there was a fresh shock caused by the news that five hundred thousand sovereigns had been shipped from London to the Plate, and are now on the way out, and the gold it seems does not come to the Provincial Bank or to the Government. The news, although guaranteed by our colleague, was doubted by all the gold bulls, but there were men in the liquidation room who say it is true and that the gold comes to one of our banks.

The Sales at afterhours were—

We have received the following letter for publication:—

80 Calle Reconquista,
June 18th.

To the Editor of the *Standard*

Dear Sir,

I must protest against your assertion in this morning's *Standard* to the effect that 'all the wool in the Once was sold.' Such statements lead estancieros into the belief that we have a rising wool market, and that there is yet hope by holding on some time longer. No doubt we have favorable news from Europe, but the advance does not compensate for the fall in gold.

Transactions in the Once have been very limited for several days, buyers showing little inclination to operate except at reduced prices.

I am, dear Sir,
Yours truly,
J. SEWELL.

Importantisimo, leer esto

La practica nos ha enseñado, como asi mismo las indicaciones de nuestra amistosa clientela, que no debe lanzarse a remate ninguna propiedad de cuya bondad de titulos no tenga la casa confianza y seguridad absoluta, por cuya razon hemos trabajado mas de dos meses hasta reunir toda la documentacion necesaria para presentar en venta esta zona importante de tierra, sin que los interesados tengan meses dad a pedir datos.
Hemos impreso un folleto, que contiene; 1° El plano de Santa Fe y su vecina Santiago del Estero. 2° El informe del Gobernador de la Provincia, declarando ser propiedad de los Canepa el campo a venderse, acompañando copia legalizada de la ley que autorizo la venta y reconocieindoles el derecho a su enag nacion. 3° Carta del Señor Obligado que ha recorrido los campos durante anos; determinando su ubicacion, buena calidae, ventajas de su adquisicion, condiciones, etc. etc. 4° Planos del campo a venderse, con determinacion de lotes y la ubicacion de todas las importantes colonias con que se avecinan. 5° Nomina de los linderos y establecimientos importantes inmediatos. 6° Informe escrito del estudio hecho de todos los documentos y titulos por el acreditado escribano Sr. D. Pormenores

Estos campos distan solo 6 leguas de las colonias Sunchales y Espin [suizo] y 7 o 10 de las estancias de Escalada, Ramayon, Coronel Obligado y hermano, Dr Pedro Palacios, Banc de Londres, Coronel Lacueva, Coronel Jabson. Lindan a mas con los Srs W Paste y Ca, Dr Lawson, Meyer, Ozuiza, Duchiwitz, Altgelt, Napp, Loissoau, Bonorne, Newton, Mulhall y otros, que adquieren en la misma forma hacen diez anos.
La traza del ferro carril de Santa Fe a Santiago, cruza estos campos y se radicara una o dos estaciones en ellas.
Con la base fijada, no se habran puesto en venta campos mas baratos y si se habran adquirido jamas mejores como calidad, pues el Sr Coronel Obligado dice en su informe que son SUPERIORES a los del Sud de Cordoba y a los del Departamento del Rosario.
Hay campo linderos, que se han vendido (y mostraremos el certificado) a 3000 $fts. la legua.
En la colonia Espin, donde existen mas de 150 familias fundada por el Sr Benitez, se venden las concesiones a 200 $fts de solo 20 cuadras, luego la legua ha producido ya mil onzas de oro, en 80 concesiones.
Los campos estan mensurados indicialmente perfectamente amojonados con grandes postes de nandubay.
Hoy dia, la casa bancaria de los Srs Murrieta en Londres, esta recibiendo los campos del Chaco, del Gobierno de Santa Fe, en pago del emprestito a razon de 1600 $f. por legua, y estos son superiores y mas cerca de la capital.
Para terminar: la familia Canepa, es propietaria en el Rosario y esto redobla la garantia.

STATE OF IRELAND.

THE LAND AGITATION.

Dublin, May 18th.

Mr Dillon, M.P., was removed to-day at his own request from the infirmary to his cell in consequence of other prisoners being put into the same ward with him. He had been allowed to occupy a room to himself as long as accommodation was not required for other patients; but within the last few days some of them have fallen ill, and it was thought advisable to place them in the infirmary.

Kevane, the Irish-speaking prisoner, who was committed on suspicion of having maimed cattle, was discharged this morning by warrant of the Lord Lieutenant and sent back under an escort of police to his native place in the county Kerry.

At Lismore Presentment Sessions yesterday, a farmer named Scanlon claimed the presentment for £70 compensation for the malicious killing of a horse, and for the malicious burning of a stable and a cowhouse on the night of the 14th of April. A short time before that date he took a farm from which a former tenant had been evicted, and was then threatened. After hearing evidence, the sessions passed a presentment for £37.

An application was made to-day in the Queen's Bench Division that the prisoners Walter and John Phelan, who are charged with the murder of Mr Boyd at New Ross, should be arraigned. They were brought from Kilkenny this morning and were present; they were arraigned accordingly and pleaded 'Not guilty'. The proceedings were taken with a view to an application to change the venue of the trial to Dublin. The prisoners were afterwards committed to Richmond Bridewell.

Petitions are in course of signature calling upon the House of Commons not to assent to the Land Bill 'without such amendments and equitable provisions as are necessary in the interest of sound policy, and for the protection of private rights.'

Cork, May 18.

The landlords of the county Cork have adopted a petition to the House of Commons against the Land Bill, and it is receiving many signatures. The petitioners state that, while heartily disposed to welcome a measure calculated to promote satisfactory relations between owners and occupiers of land in Ireland, they cannot approve of the Land Law (Ireland) Bill, which, in their opinion, embodies provisions that, if passed into law, would confuse all existing relations between landlord and tenant, would lead to incessant litigation, and would vest, without control or appeal, the regulation of the principal industry of Ireland in a new tribunal which may consist of a single individual, and which in any case would be inadequate to sustain the pressure of business thrown upon it; that the Bill, while making pretensions to benefit the community, would in reality confer an unearned bonus at the expense of the landlords, and of all future occupiers of land, upon those only who chance to be the present occupiers; would establish principles which must ultimately be injurious to all classes, and, instead of putting an end to the existing agitation, would supply an incentive to its continuance; and that the changes in the land law which the Bill proposes would involve the virtual expropriation of the landlords, which, even if regarded as necessary in the interests of the State, should only be effected upon terms of fair purchase or reasonable compensation. The petitioners, therefore, pray that the House will not assent to the Bill without such amendments and equitable provisions as are necessary in the interest of sound policy and for the protection of private rights.

An extraordinary outrage has been committed at Mitchelstown. Mr Standish O'Grady, solicitor, recently served writs upon tenants for non-payment of rent, and for this act he was marked out for the indignation of the populace. Yesterday while passing through Mitchelstown, he was attacked by a mob, who hooted him, used offensive epithets, and threw rotten eggs at him Mr O'Grady, hoping to frighten off the crowd, drew his revolver, and fired over the heads of the people. This caused them to fall back; Mr O'Grady reached his car, but the people again closed in, and it was not without considerable difficulty that he finally escaped. It is stated that members of the Land League have announced their intention to bring proceedings against him for firing on the public road.

Mr Walsh, who claims to be an American citizen, has had his papers sent to him through the Land League, and it is his intention to appeal to the American Consul for his intervention.

A funny duel came off in Rosario last week between two 'jovenes,' and we hope and suppose they were 'distinguidos.' When the word was given to fire, instead of pulling the truggers, both combatants threw down their pistols, rushed at each other, and set to with their fists and feet. After they had sufficiently mauled each other, the seconds declared honour satisfied, and the whole party adjourned to breakfast together. This is the most sensible duel we have heard of for some time.

Mrs S. A. Allen's World's Hair Restorer

The Genuine only in Pink Paper Wrapper
It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty
IT IS NOT A DYE
It ever proves itself the natural strengthener of the Human Hair.
THERE are two special qualities which determine and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer:—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained of in other preparations. It never stains the skin or linen. It retains the hair in any desired position, and is cooling and cleaning to the scalp.
Use no other Preparations with it, not even Oil or Pomade or Zylo-Balsamum
To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.
Because it is made from Choice Materials, and prepared with the utmost Care and Skill.
Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.
Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.
Because by its Gentle Tonic Action the Roots are strengthened—New Life, and Hair Natural Colour.
Because the Soft and Silky Texture of Healthy Hair follows its use.

THE HAIR

Its Beauty can be Restored and Preserved.

"Beautiful Hair, Nature's Crown, Luxuriant and Beautiful Hair"

It cannot truthfully be said that at any age, period, or condition of life the Hair can or should be allowed to take care of itself, and requires no aid to stimulate and maintain its growth

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.
Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, fater eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
